<b>Karen Edwards</b>	<b>Seaker Overall Avg:</b>	<b>4.893</b>
Presentation was fair, balanced and free from commercial bias		4.90
Teaching Methods/Ability		4.88
Demonstrated Expertise and effectively communicated the topic		4.90

Love this topic, enjoyed the hands on

Exceptionally well done, helpful. Appreciate the practical use on models.

Excellent! Learned a lot and the speaker was informed and entertaining.

Speaker energetic, interesting and informative. She did a great job making the models used for the demonstration.

entertaining! Informative!

very animated presenter. You felt like she was really in the trenches with you and not just an observation or what should work.

Karen is an amazing presenter, thoroughly enjoyed!!!

Excellent on hands opportunity as well as interaction with seasoned ostomy nurses.

great practice session

I don't have much of this, but it was still helpful.

It was very informative. Lessons learned

very informative and great learning experience

loved the hands on pouching!!!

Excellent talk, loved the hand on

Great models and slide presentation

As many ostomies and fistulas as I pouch I learned a great deal about options for healing and creating a good seal. THANKS!

Loved the practice stomas!

Wonderful information. Thank you. I wish you could have slowed down some for me to learn some of your techniques.

Very enjoyable , knowledgeable speaker

Very informative

Karen is always a great presenter, interesting; Like ostomy as preconference option

fabulous discussion, the models we were able to work with were very life like and true to form. Karen was excellent!!

Great session. Good hands on experience

Interactive, informative and engaging

Great learning experience with pouching the stoma models

Excellent Speaker, with hands on experience which is always a plus!!

i am not an ostomy nurse, but this was good information

Wonderful session leader- energetic, enthusiastic, knowledgeable

opportunity for hands on is extremely helpful.

Loved the hands on activity

Liked hands on.

Very good session, enjoyed the hands on portion. Could have spent a little more time on stomal emergencies. I do believe it is important to be able to state the product that was used to achieve success. As WOCN's, we can use this information to best iden

hands on experience was a plus

great
