Carolyn Watts	Seaker Overall Avg:	4.675
Presentation was fair, balanced and free from commerical bias		4.77
Teaching Methods/Ability		4.60
Demonstrated Expertise and effectively communicated the topic		4.66

I'm proud to be a WOC nurse. Thank you Carolyn.

WOCNs wear many hats as we care for our patients.

I enjoyed the history component

Nice presentation but it was more of a cheer leading session rather than an informative session. I would have liked more history and impact of the WOCN Society over the years.

interesting

Very rewarding to be a WOC nurse.

This was a good refresher of all the roles of WOCN

i was surprised on how much i enjoyed this presentation. i found it useful.

Nice reminder of the importance of our specialty. Liked videos "I deserve a WOC nurse"

Enjoyed hearing from her and was impressed that she was able to be so gracious and cover the other speaker and deliver her presentation early and at short notice. ** Great Job ** (The asterisks are pom poms)

well thought-out presentation

We've come a long way, gaining more respect and exposure along the way.

liked the video but it would have been nice to see some young nurses in it to include their vision

Session makes one feel very appreciated and needed. Making a difference /impact in this field of specialty.

Feel WOCN nursing is such a valuable profession. We are caring offer hope, professional, hard working, have never bee sorry.

A touching tribute to our profession. Thanks Carolyn

Always great to see how far our practice has come and give us a vision for the future. Carolyn's devotion to WOC Nursing is infectious.

This presentation made me feel proud to be in this profession-- Carolyn Watts was very inspiring in reminding us why we do what we do. The video patient add made me tear up.

I liked the video of the pioneers of WOC.

GREAT REMINDER THAT WE ARE NOT "JUST" WOC NURSES...BUT MOREOVER....WE ARE BOARD CERTIFIED EXPERTS WITHIN OUR FIELD OF PRACTICE !!!

great job!

Power-point did not exhibit the cultural diversity of WOC nurses. We have male, African American, Asian, Hispanic, etc. WOC nurses, however the power-point did not depict the diverse groups.

I liked the political awareness, business involvement awareness section and other tools available in the WOCN web page.

Fun slides! Thank you!

nice job. very well organized presentation.

So proud of the SER region. Great conference!

General information was helpful. I was just disappointed that the schedule was changes as I was wanting to hear the legal presentation. I had to leave after the awards luncheon.

It was a great reminder/refresher of all the things the WOCN society is doing for us and all the resources they have available on the website.

Nice summation of our specialty of nursing and how we impact our patients.

Not really impressive and applicable to scope of practice

Excellent speaker.

good representative recruiter for WOCN membership!

Was not as dynamic as I was expecting from the President, kind of "ho hum"

Thanks for the magic.

Carolyn was the most intuitive speaker of the entire conference. She really made me feel like I am doing good things. I loved all the kudos.

Ms. Watts pointed out that Wound Care Nurses interact with and provide care for their patients over a long period of time and therefore establish strong relationship. She reviewed the many roles of the Wound Care Nurse.

After 35+yrs, it still gets my emotions; we need to applaud ourselves!!

Encouraging

How WOC nursing has changed over the years

I thought the presenter was great I guess I was just looking for a bit more content in presentation

Loved this presentation. And the fact that she moved her topic up at the last moment to cover for Dr. Normanc just shows what a great speaker and leader she is for our society! Kudos once again to Carolyn for saving the day for the SER WOCN Conference. G
