| Demonstrated Expertise and effectively communicated the topic | | 4.67 |
| Virginia Kanner | Seaker Overall Avg: | 4.733 |
| Teaching Methods/Ability | | 4.73 |
| Presentation was fair, balanced and free from commercial bias | | 4.73 |
| Demonstrated Expertise and effectively communicated the topic | | 4.73 |

appreciated flash drive with process application.. thank u.

Excellent information and very interesting presentation!

Super session!

should have been more hands on, some of us have never actually done this procedure

Very appreciative of the laminated sheet with step by step application of total contact cast and the USB key with video. Great ideas and very helpful.

Thanks so much for the flash drive and video

Interesting topic and knowledgeable speakers. Dr. Chatelain was very smart and entertaining!

Enjoyed this very much. I liked the xrays in Dr Chatelain's portion as it clearly demonstrated the physiological problem. The videos were very good at teaching the casting process. I appreciate all your effort as this is the way that I learn best- pictur

Dr. Chatelain and his team, Tina and Virginia truly love what they do and their passion showed in their presentations. I was aware that TCC was the "Gold Standard" for diabetes foot wounds but what I didn't know was their are several options to choose fr
