There is always so much on continence and ostomy. I really need straight up Wound information.
I was so pleased and honored to be able to attend the conference. I have been applying many of the techniques I reviewed at the SER conference to my practice. I hope to attend another conference soon.
Excellent program. I learned a lot. Thank you
I work very little & I have not worked since the conference. I am sure that the information would have been helpful if I had worked. The conference was very good.
very nice conference
The information related to my practice as a WCC not a WOC
Great program. Very much enjoyed and learned from it.
Time
Great information!
Wonderful conference with great info - Thanks
