

**9/22/2018 201812 Teaching others to Navigate the Tides of Peristomal Skin Health: The WOCN® Society's Peristomal Skin Assessment Guide (PSAG) for Clinicians**

Objective	# Resp	Avg.
Explain rationale for development of Peristomal Skin Assessment Guide (PSAG)	132	4.924
Utilize Peristomal Skin Assessment Guide (PSAG) to support differential assessment and management of peristomal skin complications	132	4.886

<b>Laurie McNichol</b>	<b>Seaker Overall Avg:</b>	<b>4.942</b>
Demonstrated Expertise and effectively communicated the topic		4.95
Presentation was fair, balanced and free from commercial bias		4.95
Teaching Methods/Ability		4.93

provided new information for me to know and apply in my practice

Good information

Well presented information

So very glad this was explained.

So proud to have these tools to share with my facility and staff.

Thank you for the PSAG.

Love that that was shown, will be sharing

Great presentation. I am planning to empower my nurses and patients in using PSAG tool. Thank you!

Thank you WOCN for sponsoring this fantastic speaker

Love this.. Will take back to my practice and put to good use!

Excellent

Have heard this already in other venues.

Great teaching tool!

One of my favorite speakers from this conference.

Great tool to use for non-WOC nurses.

easy to understand. Will take back and use. Will make sure my patients have access to this. Laurie is great!

Great tool. I hope to share with our surgical office nurses.

Great tool

Glad the SER got to hear one of these presentations. Too bad so few people stayed to hear it. Thank you.

wonderful tool, will add to practice and education. Excellent speaker

Laurie was outstanding!!

The Peristomal skin assessment Guide presented, will hopefully provide a better understanding and overall outcome for patients and ostomy providers by increasing quality of life by decreasing painful complications.

Love the "PSAG" on line guide, very helpful.

Got some ideas ways the tool can be utilized in the facility were I work.

great! I learned so much

Think the guide (PSAG) will be very helpful for staff nurses.

great info

This is a good tool to use to teach staff to evaluate peristomal skin issues.

Good information

Amazing

I liked that she talked about knowledge transfer. I've always believed in teaching to empower. I am glad she said that it will not put our (WOCN'S) worth/need in jeopardy by passing on our knowledge!

Thank you for the PSAG link! I'm going to post this on my unit! I'm very excited!

great tool

Could listen and learn from Ms. McNichol all day. Will certainly utilize her suggestions in my ostomy care practice. Helped me to identify one condition from another.

Excellent work, engaged with audience some.

great guide!

great work by committee that developed tool. Laurie is good speaker

GOOD

awesome speaker

great!

Great

great resource

Great information

very useful information

good

EXCELLENT!!! This is a very good tool to have! Thank you so much for creating!!!!!!!

This presentation has already affected how i present ostomy education. I used the PSAG yesterday, Great Tool!!

Very interesting and useful Assessment Guide for peristomal tissue. This tool will give the bedside nurse more autonomy.
