

9/20/2018 PreCon1 Wound, Ostomy and Continence Pharmacology

Objective	# Resp	Avg.
Analyze the mechanisms by which medications promote or inhibit wound healing	29	4.931
Describe how drug pharmacodynamics and pharmacokinetics are affected by intestinal diversion	29	4.828
Explain drug therapy for conditions commonly affecting persons with a diversion	29	4.931

Janice Beitz	Seaker Overall Avg:	5.000
Demonstrated Expertise and effectively communicated the topic		5.00
Presentation was fair, balanced and free from commercial bias		5.00
Teaching Methods/Ability		5.00
Kevin Emmons	Seaker Overall Avg:	4.943
Demonstrated Expertise and effectively communicated the topic		4.97
Presentation was fair, balanced and free from commercial bias		5.00
Teaching Methods/Ability		4.86
Lynette Franklin	Seaker Overall Avg:	4.931
Demonstrated Expertise and effectively communicated the topic		4.93
Presentation was fair, balanced and free from commercial bias		5.00
Teaching Methods/Ability		4.86

The speakers are very knowledgeable and I have learned something new to help me do a better job.
This session was very valuable.
This session was very informational. This is not a topic that gets enough attention.
Excellent presentations
Excellent information
Excellent! This session fills a gap that i have not seen at other learning opportunities. I would attend an entire conference to learn more about WOC pharmacology and advanced therapies. Thank you, great presentation
Great presentation
very good session, especially for APRNs Enjoyed the interactive
All 3 speakers made an otherwise dry topic come alive and applicable to my practice. Certainly more aware of benefits and detriments of pharmaceuticals to wound healing, elimination system, enterostomal care.
Thank you for this session. Need the pharm for re-cert and licensure.
Excellent speakers and great presentations. Although her presentation was excellent, Lynnette Franklin's delivery of her topic did not exude the confidence shown in her Friday presentation.
Excellent presentations
very informative
This was a GREAT session and would be helpful to be repeated!

Excellent presentation; loved the panel discussion and different speakers
 It was very helpful to have all three specialties together. Hope this will be repeated.
